# Noted Chicago Physician and Chemist Commends Duffy's

Dr. Eidherr, a leading consulting and analytical chemist, states that he finds Duffy's Pure Malt Whiskey perfectly pure and entirely free of coloring matter, wood spirits and fusel oil.

"I pronounce Duffy's an excellent tonic-stimulant, tissue builder and invigorator, which can be used by young and old for wasting diseases, nervous debility, loss of appetite and, in short, in all cases where an effective tonic is required."

In his original report he says: "The samples of Duffy's Pure Malt Whiskey submitted to my laboratory for chemical examination were found perfectly pure and entirely free of amyl and methyl alcohols (fusel oil and wood spirits), and also devoid of coloring matter. Comparative tests have been made with samples of Duffy's Malt Whiskey, bought from different drug stores in this city, with the same result. On basis of these examinations, I pronounce your preparation as an excellent tonic-stimulant, tissue builder and invigorator, which can be used by young and old for wasting diseases, nervous debilty, loss of appetite and, in short, in all cases where an effective tonic is required." Dr. E. M. EIDHERE.
